Music: 32 bar steady reels x 6
Form: 4 trios in a square, 1 Man & 2 Ladies in head positions, 1 Lady & 2 Men in side positions, the 'odd' person standing in the middle of the square facing out (*each trio thus forms a triangle*)

A1 Trios circle L & R

A2 (*Whole set*) Ladies reels of 3 up & down **while** men do-si-do R & L

B1 (*Whole set*) Middle 4 people star R & L **while** outsides lead corner out, set R & L, $\frac{1}{2}$ 2HT, lead back (*into new same-sex trios*)

B2 *Those in the middle of whole set* face out, change in own trio on R diagonal, **new** middles move 1 place CCW to **next** trio, all S & TS

2nd, 4th & 6th time through, the men will reel up & down set **while** ladies do-si-do R& L

3 times through gets everyone back to original partners but one place round square
6 times through gets everyone back to original partners but opposite starting place
12 times through should get everyone back home...in theory.
